On behalf of Mark Thomas, I'm forwarding a preliminary report on the ASPECT flight this morning. This report was developed while the aircraft was in-flight. We will continue to update/improve this report using higher resolution images when that data becomes available.

If you have any questions or comments on the report, please contact John Cardarelli (513) 675-4745.

Questions about the ASPECT mission status should be addressed to Mark Thomas (513) 675-4753

The aircraft is 25 minutes out from Addison. We will pull all data and quickly update the images that were sent during the flight. All other data products will be processed and updated.

Once on the ground we will make a fast repair and turn-around and get them back in the air. Any subsequent data pulls will be done at a closer airport.
